

ACCELERATING BUSINESS ACROSS LEADING EUROPEAN TECH PARKS

Connect with **5 Top European Companies** to find **collaboration** and **business** opportunities

May 2026

We invite you to connect with **5 Top European Companies** to find collaboration and business opportunities: [Actia](#), [Swobbee](#), [HBI](#), [Sener](#) and [Lynka](#).

2 DAYS
ONLINE

01

Strategic Challenges (6th May)

Each of the 5 Top Companies delivers a **15-minute presentation** outlining their strategic priorities and the collaboration opportunities offered to companies across the Tech Park network.

02

Afterwards, you can **request meetings** with the Top Companies you are interested in to explore potential synergies and they will select the requests that best match their needs.

03

Targeted B2B Meetings (27th May)

Selected companies will join a **20-minute bilateral meeting** with the Top Company, designed to turn strategic challenges into concrete business opportunities.

REAL RETURNS FOR YOUR COMPANY

With a **minimal investment**, your company can achieve **great results**:

- direct access to these 5 Top Companies,
- generation of new business opportunities,
- cross-border collaboration,
- the opportunity to offer your cutting-edge solutions to their needs.

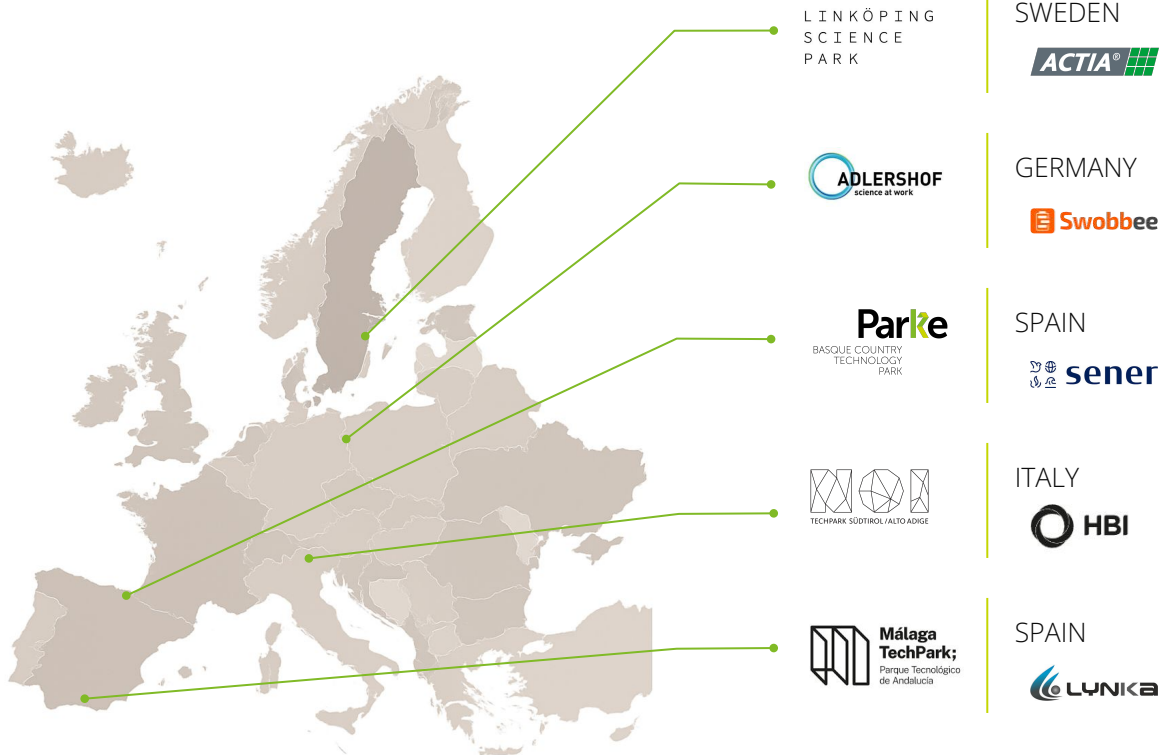

Don't miss the chance to become a partner of one of the 5 Top Companies in European Tech Parks.

CONNECTING BUSINESS ACROSS LEADING EUROPEAN TECH PARKS

An international collaboration project between **5 leading Tech Parks across Europe:**

- Basque Country Technology Park (*coordinating partner*)
- Linköping Science Park
- Adlershof Technology Park
- NOI Techpark
- Málaga TechPark

More than **3,000 European companies, universities and R+D entities**, fostering business opportunities

CONNECTING BUSINESS ACROSS LEADING EUROPEAN TECH PARKS

5 European Tech Parks:
more than 3,000 European companies,
universities and R+D entities,
fostering business opportunities

130+ 2,400

Located in South Tyrol, Italy.
One of Europe's **leading next generation Tech Parks**, connecting companies, research institutions by **fostering innovation and science**.

Parke

BASQUE COUNTRY
TECHNOLOGY
PARK

700+ 24,000

Located in the Basque Country, **Europe's strongest industrial region**. A pioneer in Spain, established 1985, and an international benchmark, the Park is strategically deployed around 7 sites in the region.

720+ 29,000

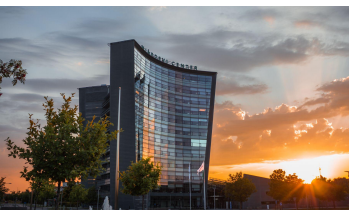

Being **Germany's biggest Science and Tech Park**, Adlershof hosts numerous market leaders of **Deep Tech companies and scientific institutes** that are thriving in fruitful ecosystem.

LINKÖPING
SCIENCE
PARK

600+ 13,850

One of **Scandinavia's leading innovation environments**, connecting high tech companies, startups and Linköping University to **accelerate research commercialisation, industrial collaboration and sustainable growth**.

700+ 29,000

CONNECTING BUSINESS
WITH 5 TOP EUROPEAN COMPANIES

Connect with 5 Top
European Companies to find
collaboration
and business opportunities

www.group.sener

International **engineering** focused on high-complexity projects in sectors such as **aerospace** and **defense, energy, mobility, infrastructure** and **data centers**, with a strong R&D&I orientation. Among its most notable projects are the Proba-3 mission for the European Space Agency, systems for the Patriot GEM-T missile, and participation in the HS2 high-speed rail line in the UK.

www.actia.se

International **technology group** specializing in **high-value electronic systems for connected mobility and industrial applications**. It develops advanced telematics, onboard electronics and engineering solutions used by leading OEMs worldwide. Its platforms support remote diagnostics, cybersecurity and over-the-air services, with products deployed across more than 130 countries.

LINKÖPING
SCIENCE
PARK

<https://www.hbigroup.it/>

High-innovation company and the creator of the **Urban Circular Biorefinery** model — the new frontier of wastewater treatment — where sewage sludge is transformed into valuable resources, renewable energy, and water. In this model, the treatment plant becomes a true pillar of the European circular economy.

<https://swobbee.com/>

Swobbee is a Berlin-based **climate-tech company** focused on battery swapping and charging infrastructure for **micromobility and light electric vehicles**. Its manufacturer-independent solutions enable safe, efficient battery exchange for **shared mobility, logistics and last-mile delivery fleets**, supporting the electrification and sustainability of urban mobility.

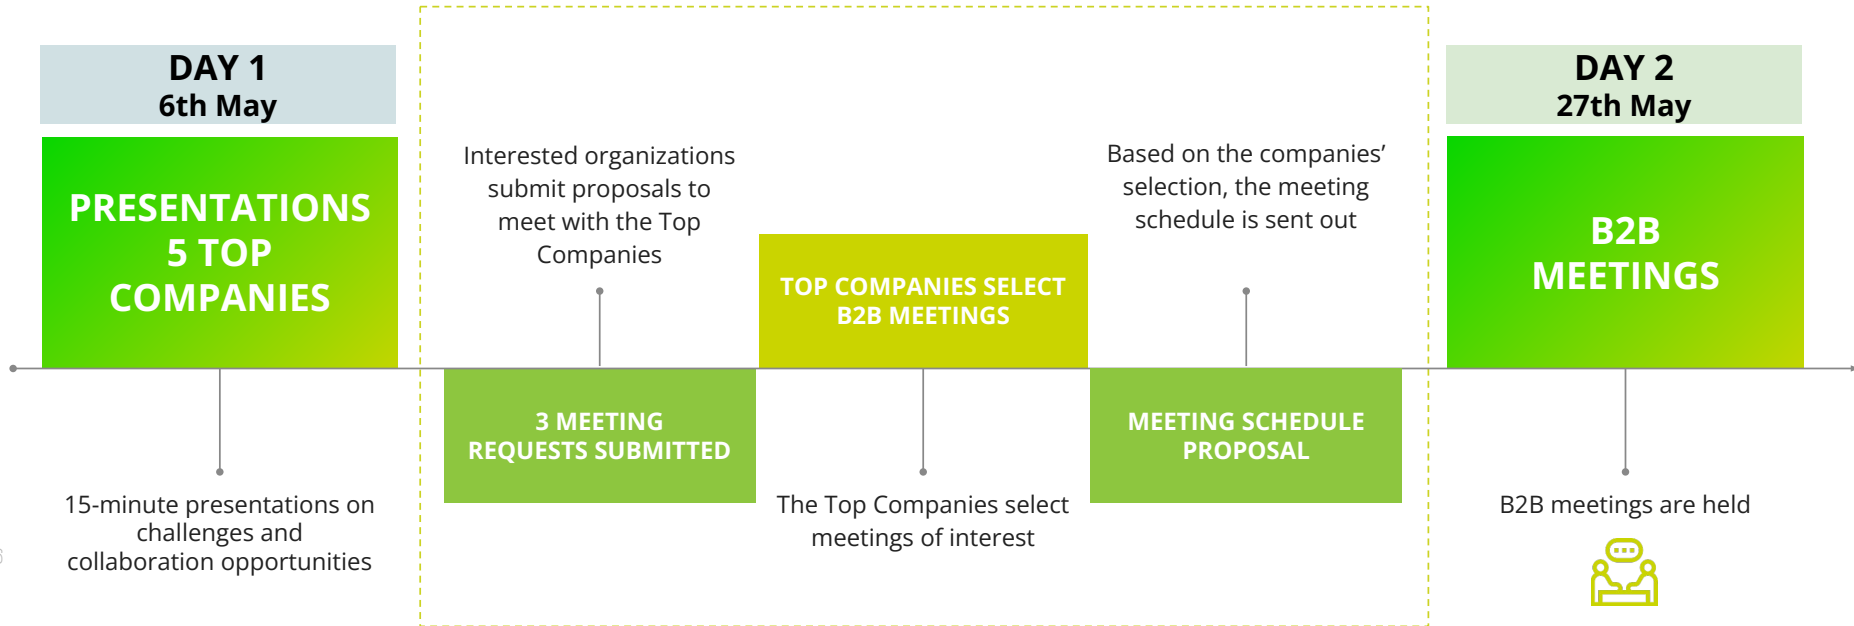

<https://lynka.net/>

International **engineering and consulting** firm focused on Energy & Water, Building, and Telecommunications, to deliver tailored solutions in each market. With **strong international experience and a technology-driven, sustainability-oriented approach**, LYNKA aims to become a leading engineering reference.
